Meeting Summary:

Dr. Juli Passarelli opened the meeting with announcements regarding upcoming events and SCAITE business.

1. Upcoming meetings:

Visit the SCAITE website at www.scaite.org for the latest meeting announcements.

2. SCAITE domain name:

The SCAITE domain name has been renewed for another year and paid for by Danny Heilprin (Ecorp Consulting). It has been suggested that SCAITE look into a five year renewal and that the expense not be Danny's responsibility to pay.

3. Miller and Lea revision:

The remainder of the meeting was dedicated to validating the revised Carangidae (Jacks) and Clinidae, Labrisomidae and Chaenopsidae (Kelpfish, Labrisomid and Tube Blennies) keys. In addition, the newly created Nomeidae (Driftfishes), and Chauliodontidae, Idiacanthidae, Melanostomiidae, Malacosteidae, and Stomiidae (Dragonfishes) keys were tested. All specimens were available for review. Any recommendations regarding the keys were either submitted to Juli to be sent to the key creator or given directly to the key creator if present.
